# Groove Mini

## Wireless Music Streaming System

### UPGRADE EXISTING AUDIO EQUIPMENT

The GROOVE MINI converts your existing audio equipment into a wireless Music Streaming Zone. Upgrade your receiver, amplifier, soundbar, or sound dock to a connected streaming zone

### EASY SETUP

Set-up using your home Wi-Fi or plug into Ethernet for automatic configuration. Only one wire connects to your audio

### STREAM MUSIC FROM

Stream from Phones, Tablets, PC, Mac, Nas, Local USB content and your favorite online music services via Wifi

### WHY STOP AT ONE

Add VOCO devices to create a multi-zone media system to enjoy music and video throughout your home.

### MUSIC FORMATS SUPPORTED

**Native Formats:** mp3, aac, aac+, m4a, flac, ogg: Max Freq Sample rate of 48khz, user select-able up to 192khz (Additional formats available via transcoding. For more details see <http://www.myvoco.com/support/#faq>)

### WIRELESS ACCESS POINT

The Groove Mini creates an access point to extend your Wifi network in your home

### GROOVE MINI ADDITIONAL SPECIFICATIONS

**Outputs:** 3.5 mm

**Inputs:** USB, Ethernet, optional Bluetooth adapter

### FASTER VOICE SEARCH

Download the VOCO Controller app from The Apple App Store® or Google Play® and use your voice to search music from local storage or online services.
